Origination Services

Appraisal

We've combined the latest technological advances with unparalleled customer service to bring you a completely streamlined appraisal and collateral valuation process. From ordering to delivery and billing, we've streamlined processes to help you work more efficiently. Also, because our panel of professional appraisers is one of the largest networks of licensed and/or certified appraisers in the country, you can rest assured you're working with some of the best to provide you with a full range of residential appraisal products, reports and reviews.

Automated Valuations

Our industry-leading valuation technology combines statistical modeling with up-to-date property database information to provide you with automated estimates of market value in seconds. ValueFinder®, our premier automated valuation model (AVM), capitalizes on the latest advances in technology to return the most reliable and accurate property estimates coupled with high hit rates – exactly what you need to make accurate collateral valuation decisions.

Credit

Our innovative credit reporting system gives you the power to perform everything from ordering and billing to checking status online. We provide seamless interfaces with most loan origination systems. Our credit reports and other products are designed to help you make quick and informed decisions: 3-Bureau Merge Reports, Merge Plus Reports, Residential Mortgage Credit Reports (RMCR), Credit Bureau Updates and Non-Traditional Credit Reports.

Flood

We make the flood determination process as smooth and efficient as possible using the industry's most-advanced technology to streamline the entire determination process. Because our technology integrates with most loan origination systems, you'll be able to make decisions earlier. What's more, all of our technology is accessible on the Internet, so you'll have quick access to our services whenever you need it.
