REVOLUTIONIZING MORTGAGE AUTOMATION

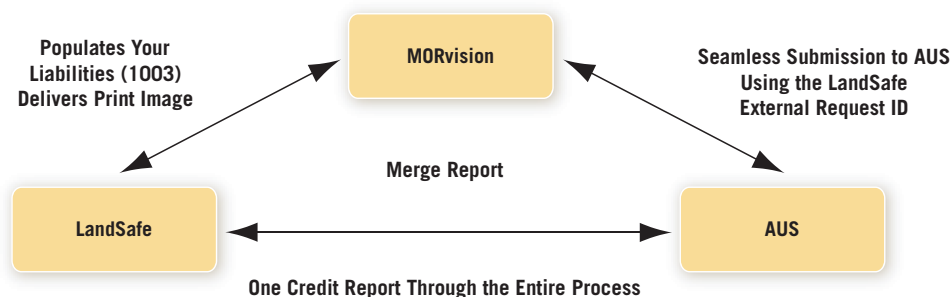

LandSafe® and MORvision™ – Enhance Efficiency and Profitability

LandSafe has partnered with Dynatek™ to bring you MORvision Credit and Flood Plug-Ins. Without leaving the MORvision loan origination system (LOS), you can request and receive credit reports and flood determinations from LandSafe and submit loans for automated underwriting decisions.

Automatically import the credit report or flood determination data into the 1003 loan application and eliminate the need to type the information yourself. Using the LandSafe External Request ID, your credit reports can be repulled at no additional charge.

Save time and money with quicker and easier submissions to automated underwriting systems (AUS) such as Desktop Underwriter® (DU®), Loan Prospector® (LP) and CLUES™ via e-Approve® or CLOUTSM 2.0.

↳ LandSafe puts multiple advantages to work for you

- Electronic ordering and delivery of reports in seconds
- All functionality within Dynatek's MORvision LOS
- Populates credit information automatically into the 1003
- Office of Foreign Asset Control (OFAC) check included with Merge Credit Report
- Seamless reissue of credit information to AUS
- Over 95% of flood determinations delivered electronically in seconds
- Manual flood determinations completed in 48 hours or less (98% within 24 hours)
- Flood life-of-loan tracking and census tract data available
- Printable borrower flood notification letter
